

# 1,300 Tires Rolled Out to UN Operations

Laem Chabang, March 11<sup>st</sup>, 2021 - RMA Automotive supplied 1,300 MAXXIS 235/85R16 AT980 all-terrain tires, filling four shipping containers, to the UN operations in Mali and Congo. This forms part of the long term contract between RMA Automotive and the United Nations Operations MONUSCO & MINUSMA.

RMA Automotive partners with tire manufacturers MAXXIS, Continental and Deestone in the promotion of their brands globally, and represents them in e-biddings and tenders.

The MAXXIS all-terrain tires are produced with a classic pattern, featuring new construction design to maximize road contact even under heavy loads, as well as improving puncture and bruising resistance. The unique zig-zag block design provides extra traction edges for excellent off-road performance.

Since 2019, RMA Automotive has been fulfilling its commitment to supply tires to the United Nations and UN entities in support of peacekeeping missions in different parts of the world.
